Just a note to say you have a great crew working here. Kai is a great leader, he gives me up dated information with the progress of the Court house roof and he is very safety conscience with his crew,

Chuck works with the copper and the details is fantastic and very interesting to watch. Jim and John are hard workers also. Kai's knowledge of his job, the crew and this project is outstanding and a necessity to a project like this.

Just wanted you to know we feel fortunate to have the crew we have here.

Sincerely,

Ken Thrailkill: Maintenance Supervisor
